

Practical Clinical Crown Lengthening and Treatment of the Short Clinical Crown

1 Hour CDE Credit

Join Zufall Health and Delta Dental for another informative course in the Clinical Excellence Series, a multi-part educational program to help learners elevate dental care.

MEET THE SPEAKER

Manjiri Mathur, DMD, is a board-certified periodontist in private practice in Hillsborough, New Jersey, and a Clinical Assistant Professor in the Department of Periodontics and Rutgers School of Dental Medicine. Mathur's private practice, she focuses on preservation and regeneration of hard and soft tissue. At Rutgers, she is involved in clinical and didactic teaching of undergraduate and postgraduate students. She was awarded the American Academy of Periodontology Award for Teaching Excellence in 2013 and was inducted into the International College of Dentists in 2020 for her commitment to giving back to the community.

OVERVIEW

The purpose of this presentation is to review the biologic criteria required for inflammation-free restorative treatment. Explain the rationale for Crown Lengthening and how to sequence treatment.

OBJECTIVES

At the conclusion of this program, participants will be able to:

1. Define indications/contraindications for Crown Lengthening and sequencing of treatment.
2. Review alternatives to surgical Crown Lengthening.
3. Discuss surgical techniques of surgical Crown Lengthening to facilitate restorative treatment and improve esthetics.

Wednesday, October 12, 2022

6:00 - 7:00PM EDT (1 hour)

Zoom Presentation (Registration required and space is limited)

Free; dental credits offered

Zufall Health is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Zufall Health designates this activity for <1> continuing education credits.
