

The Use of Chemotherapeutics in Periodontal Treatment

1 Hour CDE Credit

Clinical Excellence Series 2023: Presented by Zufall Health and Delta Dental

MEET THE SPEAKER

Manjiri Mathur, DMD, is a board-certified periodontist practicing in Hillsborough, New Jersey, and a clinical associate professor in the Department of Periodontics at Rutgers School of Dental Medicine. She also serves as a volunteer attending Faculty at Morristown Medical Center. In Mathur's private practice, she focuses on preservation and regeneration of hard and soft tissues. At Rutgers, she is involved in clinical and didactic teaching of pre- and postgraduate dental students. She was awarded the American Academy of Periodontology Award for Teaching Excellence in 2013 and was inducted into the International College of Dentists in 2020 for her commitment to giving back to the community.

Wednesday, November 1, 2023

- 6:00 - 6:05: Introduction
- 6:05 - 7:00: Educational Content

Zoom Events (Registration required and space is limited)

Free; dental credits offered

Zufall Health is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Zufall Health designates this activity for <1> continuing education credits.

ADA CERP® | Continuing Education Recognition Program

OVERVIEW

The purpose of this presentation is to review oral and systemic chemotherapeutic agents and their application in the treatment of periodontal disease. The course content is targeted to dentists, dental assistants, and dental hygienists.

OBJECTIVES

At the conclusion of this program, participants will be able to:

1. Identify antimicrobial agents used as adjuncts in periodontal therapy.
2. Understand the role of the major antimicrobial groups.
3. Discuss limitations of systemic antibiotics.
4. Identify and discuss the action of local-delivery antimicrobials and antiseptics.
