

# Pediatric Dentistry: A House of Mirrors

1 Hour CDE Credit

Clinical Excellence Series 2023: Presented by Zufall Health and Delta Dental

## MEET THE SPEAKER

Suffiyah Webb, DDS, MPH, is a board-certified private practice pediatric dentist. Webb is on staff at Newark Beth Israel Medical Center, where she teaches and completes full-mouth rehabilitation under general anesthesia. She works directly with the hemophiliac and cardiac departments to coordinate dental care and clearances. A graduate of Montclair State University, she earned a master's degree in public health from University of Medicine and Dentistry of New Jersey and received her doctorate of dental surgery and pediatric specialty training at Howard University. Webb was also appointed to the New Jersey Public Health Council by Governor Murphy and founded a school-based prevention program currently serving 21 locations.

Wednesday, December 6, 2023

Zufall Health is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Zufall Health designates this activity for <1> continuing education credits.

**ADA CERP**® | Continuing Education  
Recognition Program

## OVERVIEW

This comprehensive course in pediatric dentistry covers essential topics such as behavioral management techniques, treatment modalities, and special needs patients. Participants will gain expertise in fostering positive dental experiences for young patients, mastering diverse treatment techniques, and addressing the unique oral health needs of children with special requirements. Additionally, the course emphasizes the importance of prevention and public health strategies, empowering dental professionals to contribute significantly to the overall well-being of pediatric populations.

## OBJECTIVES

At the conclusion of this program, participants will be able to:

1. Understand how to provide anticipatory guidance to patients
2. Identify patients who can benefit from atraumatic restorative treatment
3. Assist parents with planning and prioritizing their children's oral health needs
